

# PAY WINDOW

## MODEL 7005

References:  
A30479 Model 7005

### Secure transfers of documents and other items for a safer welcome

For the most part, front-opening counters with panes are used in covered outdoor situations or indoors (security posts, reception desks, ticket booths, etc.). Their size means that they can be used to safely transfer small or large documents, while providing ballistic protection.

This model can be used to pass receipts and forms of ID through a door. This model is completely suited for installation in a solid door.
