

PAY WINDOWS

Secure transfers of documents and other items for a safer welcome

Each product in the range is designed to facilitate communication without the need for an intercom, while protecting personnel from germs and physical attacks. These pay windows provide protection against vandalism and are bullet-proof up to level BR4NS (in accordance with the EN 1063 standard). They can be installed either indoors or outdoors (in a sheltered area), incorporated into a pane or a concrete wall.

These models are designed to protect personnel against physical and/or weapons attacks. These pay windows come with document handlers so documents can be passed easily from a secure area to an outside area used by the public. The PW1 is a compact model which includes a very deep document handler. The PW2 is fitted with a coin- / note-handling system. Each model is available in a vandalism-proof or bullet-proof version.

PW1 / PW2

Reference:

A30458B PW1 (vandalism proof)

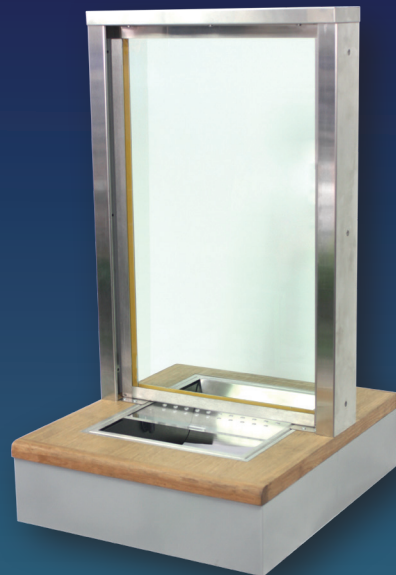

A30459B PW2 (vandalism proof)

A30494 PW1 (bullet-proof)

A30495 PW2 (bullet-proof)

BR4NS

DO YOU KNOW?

Other models in the Pay window range:

- Duetto with / without transfer flap (vandalism proof)
