

PAY WINDOWS

Secure transfers of documents and other items for a safer welcome

Each product in the range is designed to facilitate communication without the need for an intercom, while protecting personnel from germs and physical attacks. These pay windows provide protection against vandalism and are bullet-proof up to level BR4S (in accordance with the EN 1063 standard). They can be installed either indoors or outdoors (in a sheltered area), incorporated into a pane or a concrete wall.

These models are designed to protect personnel against germs, physical attacks and weapons attacks. BR4 ballistic protection in accordance with the EN 1063 standard. These pay windows are fitted with a sound amplification and transfer system designed for optimum acoustic comfort: exclusive vibrating Tymbrane. They are compatible with the various document handlers, coin-handling systems and packet windows in the range.
